## Qualified Electrician

### Description

Parch Electrical & Generators is expanding and seeking a qualified electrician to join our growing on-site team. We specialise in industrial, commercial and backup power installations across Gauteng.

We are looking for professionals who take pride in their workmanship and understand that safety and compliance are non-negotiable.

### Key Responsibilities

- Perform industrial and commercial electrical installations
- Work on 3-phase systems and distribution boards
- Cable routing, terminations and panel wiring
- Generator and backup power installations
- Fault finding and diagnostics
- Ensure full compliance with safety and electrical regulations
- Work efficiently within structured site teams

### Minimum Requirements

- Qualified Electrician (Red Seal or equivalent)
- Valid Wireman's License (advantageous)
- Minimum 3+ years industrial/commercial experience (negotiable)
- Experience with 3-phase installations
- Ability to read and interpret electrical drawings
- Reliable, disciplined and safety-focused
